Notice of Product Discontinuation

Please be advised that this is formal notification that Atos Medical will be discontinuing the supply of the following products from 30 November 2017:

1. Provox ®2 Range of Voice Prosthesis
2. Provox ® Vega™ & Vega™ XtraSeal Voice Prosthesis (Smart Inserter models)

The latest technology Vega Voice Prosthesis remains unchanged, however the insertion tool has been updated and significantly improved based on clinicians' feedback. New product codes have been created to replace the older superseded models and there is no change in price for the new Vega Simple Inserter models.

The new codes are available to purchase effective immediately.

The new Simple Inserter product features include:

- Creates the perfect fold of the Voice Prosthesis
 - Precision-engineered folding tool for a perfect fold
- More Control. More Confidence
 - Adapts to preferred insertion method and patient anatomy
- Intuitive and easy to use
 - Minimal time to learn and easy to teach others

A list of the discontinued product codes has been supplied on the following page. Furthermore please find attached an ordering card with a summary of the new codes and picture of the updated Inserter. The deadline for placing final purchase orders for the discontinued products is 30 Nov (availability subject to supply).

Atos Medical appreciates and values your business and looks forward to your continued interest in our products. We regret any inconvenience this announcement may cause, but are eager to discuss the latest improvements to our Voice Prosthesis System and how this application will better fit the full range of your clinical needs.

Please don't hesitate to contact your local Atos Medical Representative for any additional details.

Yours Faithfully,

Matt Harris
Country Manager ANZ
Atos Medical Pty. Ltd.

At Atos Medical, we are committed to giving a voice to people who breathe through a stoma, with design solutions and technologies built on decades of experience and a deep understanding of our users.
