State-wide Equipment Program

Continence Catalogue

Version 16 Updated 18/08/2023

Picklist for Continence Items

The State-wide Equipment Program (SWEP) currently administers the Continence Aids Program for the Department of Health & Human Services for eligible State funded consumers. SWEP also provides continence services to NDIS participants and privately funded consumers.

The SWEP generates and maintains picklists for the use of SWEP registered Practitioners. SWEP recommends that you consider selecting contracted items. Contracted Items ensure they meet the relevant Australian Standards, meet specifications required by our consumer group and are best value for money.

Consistent with State funded continence program parameters, Practitioners may access the authorised range of non-disposable products in the catalogue for State funded consumers, with NDIS participants and self-funded consumers able to access the full range including disposable products. The products not available for State Funded consumers with have an N at the end of the SWEP ID (Picklist Code).

If you choose a non-contracted item, you will be required to enter the relevant picklist code from the Continence Quotable Pick List and submit a quotation with your application. You will need to ensure the quote has all the required information which can be found on our quote template.

At times products may be unavailable from the supplier. In this case the item will be highlighted yellow and state they are currently unavailable.
