

Ways of using the advanced search

Getting Started. To access the advanced search, go to the search asset screen and select the subtype of equipment you are searching for.

Search Chart by Subtype

Search Assets

Asset Number:

Asset Status:

Subtype: * Wheelchairs, Manual

Availability Status:

Step one ↓

Step two → [Use Advanced Search](#)

Once on the advanced search screen go to the “details” tab for input choices.

'Advanced' Search for Re-Issue Assets

Asset Number:

Asset Status:

Subtype: * Wheelchairs, Manual

Availability Status:

General Manual Wheelchair Details

Company Name:

Program:

Examples.

Wheelchairs:

- Search for a range of seat sizes using only one digit. E.g. to see all chairs with a seat width of 400 to 490 mm simply put just a 4 in the seat width field. (see below)

Detailed Comments

Pressure cushions:

- Find a cushion where the height does not start with a 1. This search uses the “tilde” key. This placed before an entry means “do not show this”. The example below will give a search result for items where the height is NOT 1.

ComputerHope.com

"Advanced" Search for Re-Issue Assets

Asset Number:

Subtype: *

General Pressure Care Details

SubType:

Overall Weight (kgs)

Overall Depth (mm):

Other general tips:

- Search for an exact model. First page of any asset search. Manufacturer also useful sometimes.
 - **Example:** For model, Zippie IRIS, in this example the word IRIS alone could be entered with * at beginning and end to give wildcard search.
- If looking for an item that was selected from the SWEP pick list use the pick list code to search.

Search Assets

Asset Number:

Subtype: * 

Clear subtype to see all types of re-issue equipment.

Company Name:

SWEP Picklist Code:

Model: 

Brief Description:

Generic Name:

Manufacturer:

Searches use "starts with" by default. Use * for wildcard searches. eg. *IDE* in model search will find GLIDE e
